

We meet your testing needs

Date: 04-10-2024
No.: RWELLC-24-1111

To: Whom it may concern.

From: Noman Pirzada, General Director of Renaissance Equipment LLC

Dear Sir / Madam

Renaissance Equipment company with registration number 1717254, takes pride in representing renowned global brands of physical and analytical testing equipment across the GCC region This includes GNR S.R.L. (Italy), Galdabini (Italy), IKA (Germany), Gibitre (Italy), and more from the US and Europe. Our services cater to a wide range of industries with a special focus on steel and plastic considering the importance of analysis and other testing needs at various stages of their manufacturing processes. With the help of our certified and skilled engineers, we offer equipment that provide solutions for:

- Elemental analysis: Spectrophotometer & Diffractometer
- Mechanical testing: Hardness, tensile, fatigue, abrasion, straightening, bending, compression, charpy impact testing.
- Other laboratory test equipment: bomb calorimeter, density meter, viscosity meter, dispersers, grinding chambers, stirrer, twister, shaker, pipette, heating bath, etc.

You are requested to visit our website www.renaissance-equipment.com and for any query, please do not hesitate to contact us, corporate profile is also attached herewith.

At the end, I will visit Kazakhstan with our Business Development Manager during this month. I'd be glad if you arrange a meeting to visit your esteemed company and discuss about how our products and solutions align with your current and future testing needs.

Thank you so much in advance.

We look forward to your kind response. For further information, please do not hesitate to contact us.

Thanks & best regards

Noman Pirzada
